Located at 1919 North Flagler, Olara Residences will transform an exclusive stretch of waterfront in West Palm Beach into a prime wellness destination for relaxation and restoration. Residents will have access to a resident-only marina with direct Intracoastal access, and a private spa. With interiors by Gabellini Sheppard and architecture by renowned Miami architecture firm, Arquitectonica, the condominium tower will feature one- to four-bedroom (plus den) homes that boast expansive views of the Intracoastal Waterway and the Atlantic Ocean.
