Healthy Living

While many high-end residential developments consider health and wellness within their amenities, few if any prioritize it quite like West Palm Beach's **Olara**. Overlooking the waterfront on North Flagler Drive, Olara boasts a wealth of offerings including a private dock with a yachting concierge and houseboats, a co-working lounge, a state-of-the-art gym, a restaurant, and an outdoor amenity deck featuring a leisure pool, lap pool, juice bar, and veranda. The wellness pièce de résistance? Residents receive complimentary **Sollis Health** memberships. Sollis Health has made a name for itself by providing exclusive, comprehensive care for emergencies, checkups, and everything in between. Memberships include 24/7 urgent and

emergency care 365 days a year at Sollis' Palm Beach location or any other of its outposts, including in New York City, the Hamptons, and Los Angeles. Patients are also privy to on-site lab testing, screenings, and imaging; can request same-day or advance house calls; and schedule virtual appointments.
